ISSUE:

Contract with The Utah Division of Environmental Response and Remediation for ground water testing.

SYNOPSIS:

The Utah Division of Environmental Response and Remediation is requesting permission to drill one test hole on each of three City property sites to monitor ground water.

BACKGROUND:

The Utah Division of Environmental Response and Remediation has several sites identified where it wants to drill to take water samples. Three of the sites are on City Property. 4175 West 3980 South (Country Meadows Park), 3558 West 3965 South (Peachwood Park), and the other is a right-of-way in front of Country Meadows subdivision at 4100 S 4122 West.

The Division is drilling to take water samples. Each property will be accessed by an F-Series size truck, a two inch hole drilled, a sample taken, then the hole filled in and all property restored to its previous condition.

RECOMMENDATION:

Approve contract with the Utah State Division of Environmental Response and Remediation to take water samples on City Property
